A flexible solution to the permanent or temporary containment of liquids

FASTANK-1

Applications

- Pollution clean-up
- Temporary liquid storage
- On site treatment of pollutants
- Water storage / fire provision
- Effluent containment
- Decontamination pool
- Laboratory test tank / mixing tank
- Aquaculture

FASTANK-5

Features

- Small packaged weight and volume
- High level of chemical resistance; compatibility chart available
- Aluminium frame ensures upright walls
- Smooth profile facilitates easy cleaning
- Robust and durable
- Designed for internal or external use
- Patented design accommodates uneven ground

FASTANK-1 Carry Bag

Benefits

- Simple tool free assembly
- Possible to re-site quickly
- Maintenance free - corrosion resistant materials
- Multi purpose uses
- Easily stored and transported
- Cost effective solution to liquid storage

Accessories

Polythene Liner	Speeds cleaning & prevents cross contamination
Decanting Valve/	For emptying, water level control, decanting
Pipe Kit	& overflow
Ground Mat	Extra protection on rough or sharp ground
Roof Cover	Clips on, reduces evaporation & contamination
Foot Plates (FT-1)	For soft ground, tool free attachment
Pipe Saddle	Used to safely pump over tank wall.
Hand Pump	Output of 110L/min. Includes inlet and outlet hoses
EzeeBOX®	Robust, weatherproof and versatile storage box

Specifications

	Assembled Size	Packaged Size	Packaged Weight	Capacity
FASTANK-1	1.2 dia x 0.9m h 47 dia x 35" h	0.92 x 0.3 x 0.23m 36 x 12 x 9"	11 kg 25 lbs	1000 Litres 200 Imp Gls 240 US Gal
FASTANK-3	1.8 dia x 1.25m h 70 dia x 50" h	1.26 x 0.28 x 0.33m 49 x 11 x 13"	28 kg 60 lbs	3000 Litres 600 Imp Gls 720 US Gal
FASTANK-5	2.3 dia x 1.25m h 90 dia x 50" h	1.26 x 0.28 x 0.33m 49 x 11 x 13"	36 kg 80 lbs	5000 Litres 1000 Imp Gls 1200 US Gal

FASTANK is manufactured to ISO9001:2000 Quality Standard from 25oz (850gsm) rip stop acrylic and vinyl coated polyester fabric. Structural aluminium frame connected with corrosion resistant fittings. Temp Range: -20 to +80°C; LTA and PU FASTANKS available.

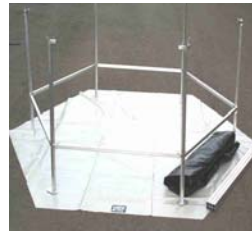

Accessories

Polythene Liner: Protects the inside of the tank from aggressive liquids. It minimises the cleaning of FASTANK after use with dirty or oily contents. Prevents cross contamination when storing different liquids. Made from 125micron (500 gauge) virgin food grade polythene. This is a cost effective accessory.

EzeeBOX®: Robust, weatherproof and versatile storage container for FASTANK. Made from premium grade U.V. stabilized polyethylene (LLDPE). EzeeBOX weighs 19kg and measures 1.6 x 0.46 x 0.5m. Further applications include - liquid containment, decontamination tank and animal rescue.

Pipe Kit: Connects to reinforced area in bottom or sidewall of tank. Pipes plus fittings provide various inlet, outlet, overflow and aeration options.

Ground Mat: Provides extra protection on rough or sharp ground. Made from heavy duty vinyl coated reinforced fabric.

Pipe Saddle 75mm (3") or 50mm (2"): Used to safely pump over tank wall, using lay flat hose. Simply attached - no tools required. 50mm size fitted with male camlock connection.

Foot Plates (FT-1 Only): For use on soft ground. Easily attached to tank legs with thumb screw fitting. The aluminium plates are 133mm (5") square.

Hand Pump: Output 110L/min (25 Imp. Gls/min) Attaches easily to FASTANK frame. Strongly constructed from non-corrosive materials. Includes 2m length of suction hose and 5m of 38mm dia. lay flat outlet hose.

Roof Cover: Reduces evaporation, algal growth and contamination. Can be reversed for use as a rainwater catcher. Made from U.V. resistant reinforced fabric. The FASTANK 3 and 5 have an aluminum roof support structure.

Decanting Valve: Effectively drains water from underneath oil reducing the volume of pollutants to be transported and disposed. This is a non-mechanical device which is trouble free & corrosion resistant. Flow rate can be adjusted by setting height of the outlet.

A range of other FASTANK sizes and shapes are available
